## WORK EXPERIENCE

---

### PMCTire

May 2016 – Present

*Full Stack Developer (remote since 2018)*

*Sherbrooke, QC*

- Designed & created search pages for all the products using Algolia as search engine and VueJS, JSX & Hugo as technologies. The design was done using Figma.
- Created a catalog for the tires directly connected to the suppliers' data, the data is stored in YAML files versioned by Git, built using NodeJS.
- Connected the price and inventory management directly to the suppliers so the information is updated every day, using Bash and NodeJS.
- Created static pages for the wheels products, to ensure the best user experience and faster page loads, the pages are generated using Hugo and NodeJS.
- Designed a REST API in NodeJS to allow querying for information on the affiliated garages and the geo-localisation of Canadian postal codes.
- Created an interface integrating OpenStreetMap and the REST API to let the clients select the affiliated garage closest to them using JavaScript and jQuery.
- Wrote tests for the various projects, mainly using Mocha and SinonJS.
- Re-created the entire technological infrastructure, which happened in less than a month, using Salt & LXD.

### Wolters Kluwer

Jan. 2015 – Apr. 2016

*Innovation Developer - Intern*

*Sherbrooke, QC*

- Analyzed, planned and created the Taxprep Dashboard tool to help the accountants to manage their tax seasons, identify the technologies and the method to proceed in the PoC using AngularJS
- Created the integration of Taxprep Dashboard into Taxprep using C#.
- Created an overview for Trello in JavaScript, called SuperMetaBoard.

### Commission scolaire de Kamouraska-Rivière-du-Loup

May 2014 – Aug. 2014

*Computer Technician - Web Programming - Intern*

*Rivière-du-Loup, QC*

- Made a quick reference sheet for all the students using SSRS.
- Added an administration section on a website to easily manage databases in C#.

### Cegep de Rivière-du-Loup

May 2013 – July 2013

*Computer Technician - Intern*

*Rivière-du-Loup, QC*

- Added a page to the library's website, in JavaScript, to allow consulting new documents ordered by categories.

## EDUCATION

---

### University Name

Aug. 2017

*B.S., Computer Science – IT Management*

*Sherbrooke, QC*
